REACH Communication - SVHC List updated to 27 June 2018

Dear Customer,

Taro Plast is confirming its attention to REACH Regulation (EC) No 1907/2006 and its effort to assure REACH compliance for each product.

Taro Plast's materials are mixtures, therefore they do not need to be registered separately, according to REACH legislation.

Following to information received from our suppliers of raw materials, we can confirm that all substances manufactured or imported in EU, which require registration, have been registered within the last deadline (31/05/2018) from our suppliers or their upstream suppliers according to REACH requirements.

Furthermore, we inform you that none of Taro Plast's materials contains substances included on the candidate list for substances with very high concern (SVHC) published by ECHA (dated 27.06.2018) in a concentration above 0.1% w/w.

Thank you for the cooperation.
